TUESDAY EVENING, FRARUARY M, 1816.

THE National Percheron-Norman Horse Association met in Peoria last week. Demite the hapifimes authit depressed condition of all kinds of business, the attendance was, farger than ever before, delegates being present even from far away through, from Kentucky, Ohio, Minnesota and many other states. Reports showed an increasing demand for heavy draft homes, and a steady market, with good prices. The busines of breeding draft horses is yet in its infancy, but everything goes to show that there is in it a wide field for enterprise and activity, and one which may be profitably cultivated by farmers, many of whom are beginning to dissover that there are easier and surer ways of is a sensible, plain woman, whom any making money on the farm that those one would be better for knowing. Tux latest novelty in the show hucis the exhibition at Gilmore's Garden in New York, called a "Congress of Heauty and Culture." The managers adver tised for 1,000 ladies, 500 misses and 500 boys, offering prizes for "the handsomest lady, the best dressed lady, the largest lady," etc. It would not be of winning a prize found themselves overshadowed and outnumbered by the beer-jerkers and other loose characters who had no secuples upon the matter of exhibiting their charms to the gaping, jeering crowd of rowdies who would naturally be attracted to such an exhibition The whole think is a disgrace to the metropolis, and ought to be summarily «quelched.

It seems that the quite over the Macaupin county bond question is not yet at an end. The County Clerk and nembers of the Board of Supervisors have been notified of a petition praying for an injunction against the Board of Supervisors from issuing bonds to fund the court house debt under the recent compromise measure. The petition states that the election was illegal and irregular, and on that ground asks for an injunction. The case will be tried at Taylorville, Christian county Good for the Southern Democrat

When Dr. R. V. Pierce was a candidate for State Senator his political opponents published a pretended analysis of his popular medicines, koping thereby to prejudice the people against him. His election by an overwhelming majority severely re-buked his traducers, who sought to imlishing these bogus analyses. Numerous balls and most abourd formulas have been published, purporting to come from high: authority; and it is a significant fact that no two have been at all slike-complesively proving the dishonesty of their an

Monthly contains an article on "The by the late Gideon Welles. The story of the intrigues to defeat the renomination of Lincoln is told with partisan warmth, and will without doubt provoke much discussion. The closing portion of the article relates to the mory told by the Confederate General Richard Taylor, in the North American Review, and is of immediate interest Taylor's story was to the effect that Lincoln and Stanton insisted that Grant must take the Wilderness route to Richmond instead of James River route, which the General favored; that General Grant coplied that if he did, as wequested the government must be predle with his plane. On the contrary, the President refrained from putting any restraint or constraint upon Grant.

At home, in the senate, on the street, he is always the same jolly, bluff, hearty man. The most popular in the senate, I have heard him called. Senator Davis and Judge Clifford are fast friends, as are their wives. They occupy one table, and are together a great deal. Judge Clifford has, like Davis, a smooth face, small eyes, and large none. His hair is straight and brown, and parted smoothly on the side, like his friend's. He is not quite so large as Judge Davis, and is nester looking, and has a more formal, old-

As a sitizen and minishim Col. Income. citizen and neighbor, Col. Ingersoil has won the hearts of every one, and whatever may have been said about either his politics or his religion, or rather, if you will, his irreligion, he has not a single enamy among us. Demograts as than to see him, and no man they would go farther to hear than to hear him -We do not believe there was another man in Peoria whom Peorians were half so proud of, and not one who could rally as many around him on any project he might esponse, as Bob. Generally our people have been rather jealous than otherwise of each other, and if any one man's head happens to risk & little about the mass there is always some-body ready to hit it. It has not been so with Ingersoll. Everybody is agreed that the Colonel could have their good wishes in everything except his peculiar religious views. In politics, the Colonel would be pretty sure to carry about as many democrats in Petria as his opponent would be able to withhold to himnelf.

Our people are unanimously of the opinion that Col. Ingernoll was most shabbily treated by the present national administration, and they wonder how he has managed to be so leniest towards President Hayes after such inexcusable neglect. Probably the religious element of the country has had much to do with this, and there are those who think they see in the Colonel's late violent raids on religious dogmas a spirit of retaliation. We hardly agree in this view.

The Colonel has been for some time partner with his brother, Man. E. C. Ingersell, engaged in law practice in Washington, and probably goes to that city to continue it. Much of his prac-

Some of the officers at Aldershot have been semi-officially notified that the second army corps will be mobilized at an éarly date.

Frankfort-on-the-Main is conspic rously mentioned as the place for holding the Congress, but Baden-Baden is likely to be selected. Austria lays great stress on the Congress assembling is soon as possible, as the surest means o prevent further complications. London, February 18 .- In the House

of Lords this afternoon, Lord Derby appended to Lords Stratheden and Camp-bellinot to bring on his motion previously stated. The Government, Lord Derby said, could not discuss the armintice. In reply to a question of Lord Granville, Lord Derby responded that Admiral Hornby moved the fleet to Mordania Bay on account of better ancharage there and better telegraphic compunication with Constantinople, and that there were no further advices regarding Russian advance on Constantinople, but information had been received regarding a possible advance on Gallipoli, but the Government had not time to consider it.

Lord Derby also stated that the movement of the first to Moudinia Bay was not due to any negotiations, and that no progress had been made in the matter of the assembling of the Con-

A Vienna correspondent asserts that Russia eagerly deferred to Prince Bis marck's viewe, when the latter, at Austria's solicitation, intimated to Prince Gortschakoff that he was straining the situation beyond reasonable bounds.-The correspondent adds: A rupture between Austria and Russia was imminent a week ago, and in place of the Kaiserbund an Anglo-Austrian combination was on the point of being established. It suited Prince Bismarck to a certain extent that Austria and Russia should be at variance, but it was alto gether contrary to his calculations that Austria should form a separate alliance with England, and had he not been appealed to in time he would have expressed himself before the German Parliament in terms that would have made matters clear for all parties. There are still wide divergencies between Russia and Austria.

Prince Bismarck will complete reconciliation at the Congress. England must look to herself. She has interests at stake which she will certainly be called upon to defead. There is not a statesman on the Continent, outside of those directly concerned, that does not admit the chief object of the triple alliance to be the annihilation of British influence abroad. A Berlin dispatch apparently confirms a portion of the foregoing. It says it is doubtful if Prince Rismerck will make full exposition of his Eastern policy, as was expected in reply to the interpellation in the Reichstag on Tuesday. He will probably be more inclined to explain his views confidentially at one of his Parliamentary soirees.

This indicates that it is the purpose of the feaders of the silver movement to discuss in the Silver Union the Senate amendments, and come to some conclusion regarding them before the House is asked to vote an the bill.

The time in the House, up to one

o'clock, was occupied by the reading of the journal and the calling of yeas and mays on private bills which were pending at the time of adjoursment on Friday. The call by States for bills and resolutions was then begun, and will continue until two o'clock, at which hour, the Speaker decides the Committeen on the District of Columbia is entitled to the floor for the remainder of the day. This effectually prevents any motion being made to consider the Silver bill, and will leave that measure on the Speaker's table for action to morrow, when it can be taken up by a majority vote. Some of the extreme silver men are not satisfied with the bill as amended by the Senate, and ussert their intention to vote against it unless the House changes the bill. is expected that the session of the "Silver Union," to-day, will be a stormy one, and there will be dissensions.

Galeshurg, Ill., Feb. 18.—State's Attorney Tunnicliff concluded his argument in the Rande case this morning. He reviewed the evidence at length, and ridiculed the insanity dodge 0. F Price followed for the defense. His argument was that, even under the com-mon law and English statutes, the killing of Belden-which he virtually acknowledged his client to be guilty of was only manslaughter. Then he ar gued that the common law did not pre vail in Illinois, and, quoting the same authorities as those given by the State, drew entirely opposite conclusion the question of insanity he had little to say, but advanced the idea that it rested with the State to prove Rande sane, and if they failed to do so he must have the benefit of the doubt. Mr. Bradshaw spoke about two hours. His speech was an appeal to the passions rather than the reason of the jury.

Reports showed an increasing demand for heavy draft homes, and a steady market, with good prices. THE latest novelty in the show hucis the exhibition at Gilmore's Garden in New York, called a "Congress of Heauty and Culture." The managers adver tised for 1,000 ladies, 500 misses and 500 boys, offering prizes for "the handsomest lady, the best dressed lady, the largest lady," etc. It would not be of winning a prize found themselves overshadowed and outnumbered by the beer-jerkers and other loose characters who had no secuples upon the matter of exhibiting their charms to the gaping, jeering crowd of rowdies who would maturally be attracted to such an exhibition. The whole thing is a disgrace to the metropolis, and ought to be summarily squelched.

It seems that the quirte over the Macoupin county bond question is not yet at an end. The County Clerk and members of the Board of Supervisors have been notified of a petition praying for an injunction against the Board of Supervisors from issuing bonds to fund the court house debt under the recent compromise measure. The patition states that the election was illegal and irregular, and on that ground asks for an injunction. The case will be tried at Taylorville, Christian county

When he speaks to friends he does it heartily, as if he was not ashamed to be caught talking to them. At home, in the seaate, on the street, he is always the same jolly, bluff, hearty man. The most popular in the senate, I have heard him called. Senator Davis and Judge Clifford are fast friends, as are their wives. They occupy one table, and are together a great deal. Judge (lifford has, like Davis, a smooth face, small eyes, and large none. His hair is straight and brown, and parted smoothly on the side, like his friend's. He is not quite so large as Judge Davis, and is nester looking, and has a more formal, oldschool manner.

In common with the entire mass of our citizens we shall deeply miss the Colonel and his family from among us, and in common with this same mass we wish them abandant prosperity and usalloyed happiness in their home. As a citizen and mishban Col. citizen and neighbor, Col. Ingersoll has won the hearts of every one, and whatever may have been said about either his politics or his religion, or rather, if you will, his irreligion, he has not a single enemy among us. Demograts as go farther to hear than to hear him -We do not believe there was another man in Peoria whom Peorians were half so proud of, and not one who could rally as many around him on any project he might espouse, as Rob. Generally our people have been rather jealous than otherwise of each other, and if any one man's head happens to risk & little above the mass there is always somebody ready to his it. It has his been so with Ingersoll. Everybody is agreed that the Colonel could have their good wishes in everything except his peculiar religious views. In politics, the Colonel would be presty sure to carry about as many democrats in Petria as his opponent would be able to withhold

Our people are unanimously of the piniop that Col. Ingersoll was most shabbily treated by the present national administration, and they wonder how he has managed to be so leniest towards President Hayes after such inexcusable neglect. Probably the religious element of the country has had much to do with this, and there are those who think they see in the Colonel's late violent raids on religious dogmas a spirit of retaliation. We hardly agree in this view.

The Colonel has been for some time partner with his brother, Man. E. C. Ingersell, engaged in law practice in Washington, and probably goes to that city to continue it. Much of his practice will be carried on in the United his time as is not occupied in court.

RANDE'S TRIAL

LONDON, February 18.—A dispatch from Constantinople mays: The Cast to saked the Sultan to permit the entry into Constantinople of a portion of the Russian troops. This request has been refused by the Sultan.

COMSTANTINOPLE, February 18 .- The Bandans have withdrawn from the Samidie redoubt of Constantinople, the line of defense occupied Friday. The orders to the Russian troops are not to cross the lines of demarkation fixed by the

LONDON, February 18 .- In the House of Lords to-night Lords Stratheden and Campbell will move that in the opinion of this House the terms of armistice between Russia and the Porte are such to justify her Majesty's Government in taking every precation as to discurred enough them to be which the treaties of 1856 and 1871 are unfortunately threatened.

Some of the officers at Aldershot have been semi-officially notified that the second army corps will be mobilized at an éarly date.

Frankfort-on-the-Main is conspic ously mentioned as the place for holding the Congress, but Raden-Baden is likely to be selected. Austria lays great stress on the Congress assembling ys soon as possible, as the surest means o prevent further complications. LONDON, February 18 .-- In the House

of Lords this afternoon, Lord Derby appealed to Lords Stratheden and Camp-bellimet to bring on his motion pre-viously stated. The Government, Lord Derby said, could not discuss the armintice. In reply to a question of Lord dranville, Lord Derby responded that Admiral Hornby moved the fleet to Mediania Bay on account of better anchorage there and better telegraphic communication with Constantinople, and that there were no further advices regarding Russian advance on Constantinople, but information had been received regarding a possible advance on Gallipoli, but the Government had not time to consider it.

Lord Derby also stated that the novement of the first to Moudinia Bay was not due to any negotiations, and that no progress had been made in the matter of the assembling of the Con-

LONDON, Feb. 18 -- In the House of Lords, this afternoon, Lord Derby read a telegram from Mr. Layard denying for himself and Server Pasha-the statement made some days ago that Serrer Pasha declared Turkey had been misled and encouraged to fight by promises of English support, particularly by Benconstield and Layard.

· London, Feb. 18 .- Conflicting explabations are given of the reason and character of the German intervention which seems to have tided over the regreatest disappointment there, because the people expected the moral support of Germany, whereas now they hear the Emperor of Germany, in his speech from the throne, referring to the programme of the Constantinople Confer ence as a basis for settlement.

A Vienna correspondent asserts that Russia eagerly deferred to Prince Bis marck's views, when the latter, at Aus tria's solicitation, intimated to Prince Gortschakoff that he was straining the situation beyond reasonable bounds.-The correspondent adds: A rupture between Austria and Russia was imminent a week ago, and in place of the Kaiserbund an Anglo-Austrian combination was on the point of being established. It suited Prince Bismarck to a certain extent that Austria and Russia should be at variance, but it was altogether contrary to his calculations that Austria should form a separate alliance Boof, Bologna and Land, with England, and had he not been appealed to in time he would have expressed himself before the German Parliament in terms that would have made matters clear for all parties. There are still wide divergencies between Russia and Austria.

Prince Bismarck will complete reconciliation at the Congress. England must look to herself. She has interests at stake which she will certainly be called upon to defead. There is not a statesman on the Continent, outside of at stake which she will certainly be called upon to defead. There is not a statesman on the Continent, outside of those directly concerned, that does not admit the chief object of the triple alliance to be the annihilation of British influence abroad. A Berlin dispatch apparently confirms a portion of the foregoing. It says it is doubtful if Ppince Bismarck will make full exposition of his Eastern policy, as was expected in reply to the interpellation in the Reichstag on Tuesday. He will probably be more inclined to explain his views confidentially at one of his Parliamentary soirces.

rency, writes to your correspondent as follows: "No arrangement has yet been male. We shall have a meeting of the Silver Thion to day." This indicates that it is the purpose of the leaders of the silver movement to discuss in the Silver Union the Senate amendments, and come to some conclusion regarding them before the House is asked to vote on the bill.

The time in the House, up to one o'clock, was occupied by the reading of the journal and the calling of year and mays on private bills which were pending at the time of adjournment on Friday. The call by States for bills and resolutions was then begun, and will continue until two o'clock, at which hour, the Speaker decides the Committeen on the District of Columbia is entitled to the floor for the remainder of the day. This effectually prevented any motion being made to consider the Silver bill, and will leave that measure on the Speaker's table for action to morrow, when it can be taken up by a majority vote. Some of the extreme silver men are not satisfied with the bill as amended by the Senate, and ussort their intention to vote against it unless the House changes the bill. is expected that the session of the "Silver Union," to-day, will be a stormy one, and there will be dissensions.

GALESBURG, ILL., Feb. 18.—State's Attorney Tunnicliff concluded his argument in the Rande case this morning. He reviewed the evidence at length, and ridiculed the insunity dodge O. F Price followed for the defense. His atgument was that, even under the com mon law and English statutes, the killing of Belden-which he virtually ac knowledged his client to be guilty of was only manslaughter. Then he ar gued that the common law did not pre vail in Illinois, and, quoting the same authorities as those given by the State, drew entirely opposite conclusion the question of insanity he had little to say, but advanced the idea that it rested

with the State to prove Rande sane, and if they failed to do so he must have the benefit of the doubt. Mr. Bradshaw spoke about two hours. His speech was an appeal to the passions rather than the reason of the jury.

Kight Chinamen and two women were known to be drowned.--Considerable minor destruction of prop erty is reported from various quarters. Upper Sacramento river is very high, and a flood is feared.

Sr. Louis, Feb. 18 .- Dr. Henry C Moss, was assassinated at his home at at Venice, Illinois, about one o'clock this morning. He had arisen to take some medicine, when he saw two men peering through a window. He opened the door, thinking they wanted his professional services, and one of them immediately fired, shooting him through the heart. Several men were arrested to-day on suspicion.

### THE LABORATORY OF THE SYSTEM

But when the stomach is ingly pleasant gentlemen, whom it is alsemi-paralyzed by dyspepsia, blood manufficture is carried on imperfectly, the circulation grows thin and sluggish, and the system suffers in consequence. After an exciting combat, which consisted of charges and retreats, our friend Thomas with characteristic rash ness, closed-with the monster in a hand to hand tussle, and as he was almost exhausted with his herculcan efforts, Dr. Waltz succeeded in putting a hall into the animal's head, though in uncomfortable proximity to Mr. Thomas. The material gross conceptions of hell that are rampant in men's minds at this time are unworthy of thinking minds in this century of enlightment and civilization Time, heat, space, matter, are all human, and modent to a material universe. How natural for the same Christ who said He was the door, to use strong figurative language to express spiritual truth, and particu larly when He could not, as we can, talk in scientific terms and make his hearers understand Him. We must all admit that some men are bad and deprayed, and that such a state of char actor comes from bad choices, and brings muory and suffering Why may not these results flow into another life and separate one eternally from God: This would be hell enough for any man, to be eternally out of harmony with God, and with the constitution of things All this fuss and salk about hell seems like children's prattle. if one but bear in mind that man is a free and moral agent, and has a conscience that will goad him and slash him unless he is right, in the sight of God and man, Even Milton puts it into the mouth of his hero, Satan, to say.

"Myself am hell Where'er I go am hell

PROF. SWING ON HELL. THE

The material gross conceptions of iell that are rampant in men's minds at this time are unworthy of thinking minds in this century of enlightment and civilization Time, heat, space, matter, are all human, and mordent to a material universe. How natural for the same Christ who said He was the door, to use strong figurative language to express spiritual truth, and particu larly when He could not, as we can, talk in sesentific terms and make his hearers understand Him. We must all admit that some men are bad and deprayed, and that such a state of char acter comes from bad choices, and brings majory and suffering. Why may not these results flow into another life, and separate one eternally from God; This would be hell enough for any man, to be sternally out of harmony with God, and with the constitution of things All this fuss and salk about hell seems like children's prattle, if one but bear in mind that man is a free and moral agent, and has a conscience that will goad him and slash him unless he is right, in the sight of God and man, Even Milton puts it into the mouth of his hero, Satan, to say.
